experience

Eleven

Industrial Designer, Sept. 2017–present
Boston, Massachusetts

Most recently I assisted with the development of a GUI for a smart kitchen appliance through iterative rounds of usability testing. I have also worked on the design for several housewares projects and a conference-call system for offices.

Worrell

Design Intern, June–August, 2017
Minneapolis, Minnesota

Worrell is a health care and medical product development consulting firm. I designed softgoods to hold medical devices for in-home use, brainstormed with clients about surgical equipment and developed an advanced surgical suite concept.

Herbst Produkt

Design Intern, August 2016–December 2016
Santa Cruz, CA

Herbst Produkt is small consulting firm in the San Francisco bay area. We worked on a variety of housewares and consumer electronic projects. My responsibilities included producing concepts and renderings for client presentations and preparing factory design documentation CAD.

Ethicon

Design Intern, January–May, 2016
Cincinnati, Ohio

Ethicon designs surgical instruments and medical products for a number of Johnson and Johnson owned healthcare companies. I was the lead designer for a cryogenic vial holder and drug transfer system that is going into production.

Yellow Window

Design Intern, September–November, 2014
Antwerp, Belgium

I worked on the interior design and livery of a tram, and produced concepts and renderings for housewares, furniture, and public transportation projects.

Industry

Design Intern January–May, 2014
Portland, Oregon

Industry is a consulting firm focused on design strategy. I produced concepts, renderings and storyboards for client presentations. In addition, I assisted with the sketch ideation for Industry's entry into the Oregon Manifest commuter bike design contest which was featured in *Wired* magazine.

Logic PD

Design Intern, June–August, 2013
Minneapolis, Minnesota

I produced design concepts and scale mockups for an orbital atherectomy surgical device, a pacemaker system to treat parkinson's disease and a cycling power meter.

Loppet Foundation

Youth Coach and Event Coordinator
Sept. 2009–Sept. 2011 Minneapolis, Minnesota

The Loppet Foundation is a non-profit dedicated to promoting cross-country skiing and outdoor sports in Minneapolis. I coached and developed a variety of youth and adult outdoor sports programs and also coordinated event planning for races and festivals such as the City of Lakes Loppet.

education

University of Cincinnati, DAAP

College of Design, Architecture,
Art and Planning
BS, Industrial Design, 2017
cum laude

Sinclair Community College

Dayton, Ohio
Certificate, Desktop Publishing, 2012
